Responses

> **200** Successful Response

> **400** Bad Request

> **422** Validation Error

POST   /api/auth/register

Request samples

Payload

Content type
application/json

Copy

```
{
    "email": "string",
    "password": "stringst",
    "first_name": "string",
    "last_name": "string"
}
```

Response samples

200   400   422

Content type
application/json

Copy

```
null
```

Verify Code

REQUEST BODY SCHEMA: application/json

email
required   string (Email)

code
required   string (Code)

Responses

> **200** Successful Response

> **400** Bad Request

> **422** Validation Error

POST   `/api/auth/verify`

Request samples

Payload

Content type
application/json

Copy

```
{
    "email": "string",
    "code": "string"
}
```

Response samples

200   400   422

Content type
application/json

Copy

```
null
```

Login User

REQUEST BODY SCHEMA: application/json

email required	string (Email)

password required	string (Password)

Responses

> **200** Successful Response

> **400** Bad Request

> **422** Validation Error

POST   /api/auth/login

Request samples

Payload

Content type
application/json

Copy

```
{
    "email": "string",
    "password": "string"
}
```

Response samples

200   **400**   **422**

Content type
application/json

Copy

```
{
    "access_token": "string",
    "refresh_token": "string",
    "token_type": "bearer"
}
```

Refresh Token

Обновляет access и refresh токены с помощью refresh токена

REQUEST BODY SCHEMA: application/json

refresh_token
required   string (Refresh Token)

Responses

> **200** Successful Response

> **400** Bad Request

> **422** Validation Error

POST   /api/auth/refresh

Request samples

Payload

Content type
application/json

Copy

```
{
    "refresh_token": "string"
}
```

Response samples

200	400	422

Content type
application/json

Copy

```json
{
    "access_token": "string",
    "refresh_token": "string",
    "token_type": "bearer"
}
```

Logout

Выход из системы. Отзывает токены.

HEADER PARAMETERS

authorization	string (Authorization)

REQUEST BODY SCHEMA: application/json

refresh_token required	string (Refresh Token)

Responses

> **200** Successful Response

> **400** Bad Request

> **422** Validation Error

POST   /api/auth/logout

Request samples

Payload

Content type
application/json

Copy

```
{
    "refresh_token": "string"
}
```

Response samples

| 200 | 400 | 422 |

Content type
application/json

Copy

```
null
```

Get Current User Info

HEADER PARAMETERS

| authorization | string (Authorization) |

Responses

> **200** Successful Response

> **422** Validation Error

GET   `/api/auth/me`

Response samples

| 200 | 422 |

Content type
application/json

Copy

```
null
```

Forgot Password

Восстановление забытого пароля

REQUEST BODY SCHEMA: application/json

email required	string (Email)

Responses

> **200** Successful Response

> **400** Bad Request

> **422** Validation Error

POST   /api/auth/forgot-password

Request samples

Payload

Content type
application/json

Copy

```
{
    "email": "string"
}
```

Response samples
